

# STORAGE FOR EDUCATION

**AURORA**

A SOLUTION FOR EVERY STORY

# AURORA STORAGE PRODUCTS

## K-12 and Higher Education

School facilities require thoughtful space planning for beautiful, efficient, and secure storage. Accessibility and aesthetics are also important factors to consider in the purchase of school storage systems.

Heightened security, one of the top priorities for all schools, is needed for expensive equipment, electronics, and confidential student records.

## Storage Solutions

School storage encompasses a variety of areas within facilities at the K-12 and university levels. Each department can have unique requirements for different types of storage and Aurora Storage Products has many solutions for each need.

- Libraries & Media Centers
- Clinics & Nurses Offices
- Textbook Storage Rooms
- Food Service & Prep Areas
- Arts & Crafts Closets
- Tech & Shop Class
- Administrative Offices
- Individual Faculty Offices
- Janitorial Areas
- Gym & Athletic Storage
- Science Lab Supply Areas
- Music & Choir

## School References

Schools around the nation depend on Aurora for their storage:

### K-12 Schools

- Bush Elementary School
- Lycée Français
- Liberty Intermediate School
- Herget Middle School
- Indio Middle School
- Chicago Bulls Magnet School
- Greenwood Lake Middle School

### Universities

- Annapolis Naval Academy
- Dominican University
- Illinois Institute of Technology
- Northwestern University Library
- San Diego State University
- US Air Force Academy
- University of Chicago
- Columbia University – Union Theological
- Harvard University
- Loyola University
- Robert Morris University
- Tulane University
- Wake Forest University
- University of North Carolina

## Aurora Storage Products Benefits

Aurora has a long history of product innovation for schools. We invented and patented the Quik-Lok® system of shelving which eliminates bolts, sway braces and protruding hardware. The Quik-Lok® design is the foundation for our line of Shelving and Mobile products used for high density storage. We also designed and patented the Times-2™ Rotary Cabinet, a double-sided locking storage system used by many schools and universities. Our Wood-Tek™ case goods combine the strength of steel shelving with beautiful and elegant wood cladding.

**Aurora Storage Products manufactures a wide range of products for all types of educational storage needs.**

## Design Support

Our design experts will assess your storage requirements and the school building space to recommend product options to optimize storage in the available space.

**If your school is starved for space, Aurora Mobile™ is an efficient solution that can save 50% of your existing floorspace, or provide 100% more storage.**

## Eco-Friendly Green Products

We're proud members of the US Green Building Council and have a strong commitment to the environment. Our storage products can help achieve LEED building certification. They contain 40% recycled content and are finished with an exceptionally durable, non-VOC powder coat completely harmless to users and the environment. Green schools can provide an atmosphere more conducive to learning, providing a healthier learning environment with better indoor air quality.

## Finishes & Options

Choose from 31 beautiful Aurora Gloss-Tek™ finishes or match to your school colors and décor.

Also available is Gloss-Tek Antimicrobial™, a time-released antimicrobial powder coat that suppresses the growth of bacteria, algae, fungus, mold and mildew. This finish will not wear out or wash off over the life of the product.

Add style elements to Aurora Shelving, Mobile Shelving, and Times-2 Rotary Cabinets with laminated end panels, school decals, slat wall or magnetic white board overlays for classroom notes.

# K-8 SCHOOL STORAGE

Elementary schools require storage for textbooks, teacher personal items, arts and crafts, gym equipment and libraries. Some schools are faced with the challenge of sharing their building space with programs such as day care, elder care, and other community use. Locking secure storage for electronics, student records, and medications are critically important for student privacy.

**Cafeteria Service**

**Media Centers**

**Gym Equipment**

**Nurse's Offices**

**Personal Teacher**

# HIGH SCHOOLS

The high school curriculum is constantly evolving to embrace new trends and technologies. STEM/STEAM programs that focus on Science, Technology, Engineering, Art, and Math, frequently make use of creative centers, called Maker Spaces, to allow students to experiment and collaborate.

**Maker Spaces**

**Counseling Offices**

**School Athletic Departments**

**Faculty Mail & Office Supply**

**Libraries**

**Choir & Music**

# COMMUNITY COLLEGES & UNIVERSITIES

Universities and community colleges serve a broad range of students from freshly graduated high school students to adults returning for work retraining.

Their storage needs are diverse. Classrooms, faculty offices, departmental offices, research, administration, and athletic teams each require different solutions.

With enrollments steadily growing as much as 15% in the next decade, some educational facilities are straining to make the best use of limited space. Aurora Storage has many space efficient solutions for all areas.

## University Clinics

## Reference Libraries

## Research Labs

## Athletic Teams

## Administrative Offices

## Student Registrar Offices

# MAKER SPACES

Schools nationwide are developing maker spaces for STEM/STEAM programs (Science, Technology, Engineering, Art, Math). These dedicated areas hold a diverse mixture of tools for creative projects. They can contain 3-D printers, video production equipment, computers for coding, woodworking, and electronic tools to build models, robots, and more.

**Aurora Storage Library Shelving has a unique 4-Post Design which stores more volumes than cantilever shelving in the same footprint. Our beveled uprights have no sharp edges to harm books and allow easy access to books in even tightly packed rows.**
